

[The Business Administration curriculum for undergraduate degrees is intended to prepare students for management careers in business, the non-profit sector, and government. Effective management requires wisdom in making moral and ethical judgments, skill in scientific analysis of problems, and the capacity to lead and motivate others in order to reach agreed upon objectives. The curriculum requires students to deal with each of these areas in an integrated way. Experience can be gained through participation in co-op, practicum and internships.

| BUA 105, Introduction to Business           | 3 | BUA 305, Effective Business Writing                | 3 |
